PREFATORY NOTE

This list of large scale foreign government maps in the Division of Maps and Charts includes publications of thirty-one governments. No attempt has been made to indicate the sets or parts of sets which are not contained in the collection. The absence of key maps and lists of publications would have made this task exceedingly difficult. The list has been prepared in the hope that when it has been sent to map-publishing bureaus of foreign governments, and to other map-distributing agencies, the deficiencies will be noted and both informa tion and maps supplied in order to complete the files of this division.

In a general way the contents of the collection may be summarized as follows: Each country is represented by a number of excellent maps in many sheets. Few of the sets are complete. For instance, of the great "staff" map of France, on a scale of 1:80.000, edition of 1873, the Library has only 53 sheets. In 1889 the publication of a new edition was commenced, to be complete in 273 sheets. In 1898 238 sheets had been published. Of this edition the Library has only two sheets.

As a result of efforts made in the year 1902, recent maps of the Netherlands, Belgium, Norway, Sweden, Austria, Switzerland, Italy, and Japan were received. Some of these sets are complete, or complete as far as issued. The maps in this division which are known to be complete are so marked in the list.

A separate report on the map publications of Great Britain will be issued at a later date.

The list as submitted does not include the hydrographic charts of any country. The collection of these charts, however, needs attention. The set of Great Britain Admiralty charts is very complete, and is being regularly enlarged through international exchange. Just the opposite condition exists with regard to other countries. The hydrographic charts in this division published by France, Spain, Germany, Italy, Russia, Sweden, and Norway are so few in number that they may be disregarded in the acquisition of such publications.

The accompanying list is not prepared as a catalogue of the maps. It is, however, sufficiently full to use as a check list in the Map Division, and to serve as a basis for reference in making additions to the collection.

The list is preceded by a table of contents, and an index of the countries covered by the maps. The list itself is arranged in an author, subject, scale, and chronological order. For example, all maps published by France are brought together and subdivided as follows: (1) Those covering the whole of France, (*a*) topographical, (*b*) geological. These are arranged according to their scales and dates of publication. (2) All maps of the subdivisions of France, (*a*) departments, (*b*) cities, etc. (3) Colonies of France. (4) All maps of other countries published by France.

In cases where the arrangement is especially complex a table of contents precedes the part of the list relating to a given country; for example, Canada.

Sweden (subdivisions).

HALLAND LÄN. 1:100.000. 1892.

Geologisk jordarskarta öfver Hallands län med bidrag åf länets Hushällningssällskap utgifven af Sveriges geologiska undersökning. Tryckt på underlag af generalstabens topografiska karta i skalan 1:100.000. Fotolit. o tryckt i gen. stab. lit. anst., 1892.

4 sheets. L. C. copy complete.

KALMAR LÄN. 1:200.000. 1876–1881.

Karta öfver berggrunden inom norra delen af Kolmar län, utförd på bekostnad af länets norra hushällnings sällskap, genom Sveriges geologiska undersökning, aren 1876–1881. Skala, 1:200.000. Gen. stab. lit. anst.

1 sheet.

ÖREBRO LÄN. 1:200.000. 1874.

Karta öfver Örebro län. 1:200.000. Utgifven af topografiska corpsen 1844 (1874).

2 sheets. Complete.

OSTERGÖTLAND LÄN. 1:50.000. 1880.

[Map of] Östergötland län. Skalan, 1:50.000. Kinda härad år 1880, häradet kartlagdt åren 1874–75.

4 sheets. L. C. copy complete.

Miscellaneous maps.

Geologisk öfversiktskarta öfver Jukkasjärvi malmtrakt och dess omgifningar, upprättad af Sveriges geologiska undersökning, genom Fred. Svenonius, Gen. stab. lit. anst. 1899. (S. G. U. ser. C. no. 183).

Tafl. 1. Skala, 1:500.000.
Tafl. 2. Karta utvisande läget af år 1899. Kända malmfyndigheter inom Jukkasjärvi malmtrakt och dess omgifningar. Skala, 1:200.000.
Tafl. 3. Geologiska kartor.
Tafl. 4. Magnetiska kartor.
Tafl. 5. Geologiska kartor.
Tafl. 6. Magnetiska kartor.
Tafl. 7. Magnetiska kartor.
Tafl. 8. Geologiska kartor.

Öfversigtskarta öfver jordarterna inom Nerike och Karlskoga bergslag samt Fellingsbro härad . . . genom Sveriges geologiska undersökning af Albert Blomberg. Skala, 1:125.000.

2 sheets. L. C. copy complete.

Geologisk öfversigtskarta öfver Sveriges berggrund, upprätted och utgiven af Sveriges geologiska undersökning. Skala, 1:1.500.000. 1901.

2 sheets. L. C. copy complete,

Miscellaneous maps—Continued.

Geologisk öfversigtskarta öfver millersta Sveriges bergslag i nio blad på bekostnad af Jernkontoret upprättad af A. E. Törnbohm, åren 1876–81. Skala, 1:250.000. Fotolit. . . . och färgtryckt vid generalstabens litogr. anstalt, 1879.

9 sheets. L. C. copy complete.

Öfversigtskarta angifvande de kvartära Hafsaflagringarnes område samt kalkstens- och mergelförekomsters utbredning. (Sver. geol. unders. ser. Ba. no. 5). Skala, 1:2.000.000. 1897–98.

1 sheet.

XIV. SWITZERLAND.

Switzerland.

1 : 100.000. 1833–1863 [1901].

Topographische karte der Schweiz, vermessen und hrsg. auf befehl der eidgenössischen behörden. [By] G. H. Dufour. Maasstab der karte, 1:100.000. Bern, 1833–1863.

"Nachträge 1901." L. C. has complete bound copy.

1 : 25.000. 1888.

Topographischer atlas der Schweiz. (Atlas topographique de la Suisse). Eidg. topogr. bureau, 1888. Maasstab, 1:25.000. (Equidistanz, 10 meter).

L. C. has all except: Section XVII, no. 480, Anzeindaz.
XIX, no. 512, Claro.
XIX, no. 515, Bellinzona.

Zürich.

1 : 25.000. 1865.

Karte des kantons Zürich im masstab von 1 : 25.000, nach den in den jahren 1843 bis 1851 gemachten aufnahmen von 1852 bis 1865 auf stein gravirt im topographischen bureau in Zürich.

32 sheets. L. C. copy complete.

St. Gothard.

1 : 50.000. 1873.

Geognostische karte des Sanct Gotthard. Aufgenommen in den jahren 1864, 65, 66 u. 71 durch dr. Karl von Fritsch. Veröffentlicht auf kosten der schw. eidgen. 1873. (Eidg. stabsbureau). Reduction, 1 : 50.000.

1 sheet.

Railroad map. [n. d.]

Officielle eisenbahnkarte der Schweiz. Carte officielle des chemins de fer de la Suisse. Schweizer post- u. eisenbahndepartement. 1:500.000. [Bern].

1 sheet.

XV. TURKEY.

Roumelia.

1:210.000. 1899.

Rumili shahane khartasi. 1:210.000. [Map drawn, compiled, and edited by the fifth division of the War department from survey by the general staff and postal service. Printed in the War department], 1317 (1899).

L. C. has 48 sheets, incl. t.-p. The sheets are not numbered, and no indications are given (no index map) as to their respective places.

Constantinople.

1850.

The capital. A map of the interior of Stamboul, inside the walls containing the imperial palaces, the Sublime porte. . . . Drawn by the . . . engineers of the military academy. Engraved and printed in the "Havadeth" . . . in the year 1267 (1850).

6 sheets, including title-page.

XVI. INDIA.

India.

1895.

Statistical atlas of India (2d edition, 1895). Printed by the Superintendent of govt. printing, India; maps by the survey of India dept. Calcutta, 1895.

32 miles=1 inch. 1875.

Sketch map of India, showing political and revenue divisions, 1872. Scale, 32 miles=1 inch. Calcutta, Surveyor general's office, May, 1867 (corrections to September, 1875).

India (geological).

1:4.055.040. 1877.

Preliminary sketch of the geology of India, by the officers of the Geological survey of India (first issue). Scale, 64 miles=1 inch or 1:4.055.040 of nature. Engraved in the Office of surveyor general of India, Calcutta, 1877.

India (western).

1857.

Atlas to geological papers on western India, including Cutch, Sinde, and the southeast coast of Arabia, to which is appended a summary of the geology of India. Edited for the govt. by H. Carter, Bombay. Printed for the govt. at the Bombay education society's press, 1857.

India (subdivisions).

Map of Goozerat, showing the boundaries of the several collectorates, political agencies, and native states. Scale of 10 miles to an inch. Prepared in the quartermaster-general's office. Bombay, 1858.

Madras (presidency).

32 miles=1 inch. 1892.

Geological map of the Madras Presidency. Scale, 32 miles=1 inch. Madras, Survey office, 1892.

1 sheet.

Miscellaneous.

Geological and topographical sketch map of . . . oil lands in Penjab. By Benjamin Smyth Lyman, for the Public works dept. Calcutta, Surveyor general's office, 1870.

11 sheets. L. C. wants title-page and index.

XVII. JAPAN.

Japan.

[Map of Japan, supplied by the General staff and the Department of agriculture and commerce, Tokyo].

L. C. has 74 parts (in all, 1,189 sheets).

1:400.000. 1894–1900.

Geological survey of Japan. Reconnaissance map. Topography, Division I. Revised. Scale, 1:400.000. Tokio, 1900. 4 sheets.

Same. Division II. Flamsted's projection. Tokyo, 1887. 6 sheets.

Same. Division III. Tokyo, 1890. 6 sheets.

Same. Division IV. Tokyo, 1892. 6 sheets.

Same. Division V. Tokyo, 1894. 6 sheets.

NOTE.—L. C. has complete copies of all those maps.

Japan—Continued.

1:200.000. 1902.

Imperial geological survey of Japan. Scale, 1:200.000. Tokyo, 189?–1902.

L. C. has: Reconnaissance
I, col. XII, zone 16, 17, 18.
I, col. XIII, zone 17, 18, 19.
I, col. XIV, zone 15, 16, 17.
II, col. XI, zone 8–15.
II, col. XII, zone 8–13.
II, col. XIII, zone 9, 10–14.
III, col. VIII, zone 7–10.
III, col. IX, zone 8, 9, 11.
III, col. X, zone 8, 9, 12.
IV, col. V, zone 4, 5, 8, 9.
IV, col. VI, zone 5–11.
IV, col. VII, zone 7–10.
V, col. II, zone 2.
V, col. III, zone 2, 4–7.
V, col. IV, zone 1, 2, 5.

Geological survey of Japan. Geological and topographical maps of the oil lands of Japan. By Benjamin Smith Lyman . . . [n. p.], 1882.

Text in Japanese and English.
